Pine Creek

Pine Creek is a small northern community in the Victoria Daly Regional Council just off the Stuart Highway approximately 90km from Katherine. It is a tough resilient community that has faced a cyclical history of boom and bust.

Kybrook Farm is situated 8kms south of Pine Creek Township with a population of approx. 80 people. The population is somewhat transient with different family groups coming and going with the wet and dry seasons.

The majority of houses in the Pine Creek Township are privately owned. The region has several NT Housing properties with the major stakeholders being Health, Education and the Police. Some are available for private rental. The Council is not responsible for the management of these properties. Kybrook Farm and The Compound come under 'Outstations' and are managed by Pine Creek Aboriginal Advancement Association. The Wagiman Guwardagen Rangers are the principle managers for this area.
